

CLAIRE SMITH

Web developer

ABOUT

I am a self-taught web developer focused on crafting highly-responsive user experiences in HTML, CSS, JavaScript, and WordPress. I am passionate about programming and always searching for ways to expand my knowledge. With my background in customer relations and journalism, I can bring a unique skill set to your team.

RECENT PROJECTS

S'MORE TIME IN THE SMOKIES

Site: smoretimeinthesmokies.com

A custom-designed WordPress CMS template for a cabin rental company. I continually maintain and update the PHP code for the client.

DAZZLE JEWELRY STORE

Demo: dazzle-jewelry.herokuapp.com/

Repo: github.com/clauresmith11

A full-featured, scalable React single-page application with a REST API and NoSql database. Utilizes the Paypal sandbox for payment demos.

PENNY'S ANIMAL SANCTUARY

Demo: pennyssanctuary.web.app/

Repo: github.com/clauresmith11

A demo app built with a React front-end and Node.js, MongoDB back-end. Features a user-friendly, mobile responsive design.

COMMON CENT\$ BUDGET BUILDER

Code at: github.com/clauresmith11

A React/Redux SPA with a Firebase database for tracking monthly expenses. Calculates spending totals in various categories and compares data with previous months.
